		Page 30			Page 32
1		engineer.	1	0	What was the white paper used for?
2	Q	Did any employees work for or with Mr. Albers?	2	_	It was sold to companies, and they made paper cores
3	A	Well, the regular shop crew.	3		out of it.
4	Q	Who was on the regular shop crew?	4	Q	Could the white paper have been used to package food?
5	A	There was a John Lemmens. Right now I can't recall	5	A	Not that I ever heard of.
6		all the names.	6	Q	Do you know who U.S. Papers sold the white paper to?
7		Was there an environmental department at U.S. Papers	7	A	
8	_	in the 1970s?	8		
9			9		sure, but we over the years, we sold to Fort
10	A				Howard, James River. I don't know how our customer
	Q	What about a research and development department?	10		base how many companies back then versus later
11		I don't recall anything about that.	11		years. I couldn't say that. But there was like
12		Do you recall any departments working with wastewater	12		Kimberly-Clark over the years. But back in the '70s,
13		produced at the De Pere mill?	13		I don't recall how many, the number of companies.
14	A		14		I'm going to list off some names to see if it
15	Q		15		refreshes your recollection as to who U.S. Paper sold
16	A	•	16		white to in the 1970s, okay?
17	Q	Correct.	17	A	Good.
18	A	Not that I recall.	18	Q	Wisconsin Tissue?
19	Q	When you started at U.S. Papers in 1974, what	19	A	,
20		products did U.S. Paper produce?	20	Q	International Paper?
21	A	We made what we called chipboard, a brown paper, and	21	A	I don't recall.
22		we also made white, the same the same type of	22	Q	A. Sturm & Son?
23		paper, but it was white.	23	A	I'm sorry?
24	Q	So we have chipboard, which was brown, and white	24	Q	A. Sturm & Son?
25		paper, which was	25	A	I don't recall that name.
		Page 31			Page 33
1	A	I I assume it was called chipboard also. It was	1	Q	Bergstrom Paper Company?
2		for the same purpose.	2	À	I don't recall that either.
3	Q		3	Q	Nicolet Paper Company?
4	•	trouble being too conversational so if I could ask	4	A	
5		you to wait for my questions to be finished, I would	5	Q	The American Can Company?
6		appreciate it.	6	_	Possibly American Can. I mean, that name comes to
7	Δ	Oh, I'm sorry.	7		mind. But I didn't I don't recall making white
8	Q	•	8		paper for them.
9	V	paper, would you agree that these materials would be	9	0	What about Pope & Talbot?
10		classified as paperboard?	10	A	Pope & Talbot, that name is familiar. Pope & Talbot,
11	A		11		but
12	Q		12		Did sorry, I interrupted. What were you going to
13	A	I just recall the word "chipboard."	13	_	say?
14		You don't recall hearing the word "paperboard"?	14		Pope & Talbot, that name is I've heard it. But I
15	Q		15		couldn't say if it was white or brown paper.
16	A	No.	16	_	
	Q	r r r r r r r r r r r r r r r r r r r		Q	What about the Malt-O-Meal company?
17		it have a specific name?	17	A	I don't recall that name.
18	A	No, as I recall, we called it core stock also,	18	Q	And Westvaco?
19		because it was sold mainly for companies to make	19	A	I don't recall that name.
20	_	cores from.	20	Q	National Can Company?
21	Q	· · · · · · · · · · · · · · · · · · ·	21	A	I'm not sure.
22	A	Different thicknesses.	22	Q	Now, as of 1974, how many tons of white paper was
23	Q	How many different thicknesses would be produced?	23		U.S. Papers producing per day?
24	A	I can't recall how many. It was just a few different	24		MR. FRANK: Objection, foundation. You can
25		thicknesses.	25		answer. Go ahead.

Page 34	Page 36
· ·	o a company called American Can or
	paper for somebody like that, and if
	ot. I'm trying to recall. Like the
	Can I'm not positive if we actually
5 BY MR. STEFFEK: 5 made it for them	
	FFEK: We've been going for about an
	we take a little break.
	vas taken at 10:03 a.m.)
	he record at 10:12 a.m.)
recall making white and brown, when that started. 10 BY MR. STEFFEK:	
	fore we went off the record, we were
	t about the American Can Company.
	u testified as to the fact that you
	exactly whether U.S. Papers sold
	American Can Company, but it sounds
Q Switching gears a little bit to the brown paper, did awfully familiar;	
the brown paper produced at the De Pere mill have a 17	, •
	per working with an individual at
- · · · · · · · · · · · · · · · · · · ·	ed Richard Keyser?
meaning it was to be used for cores. 20 A Oh, yes. Yes.	
	r. Keyser, much like we're talking to
The state of the s	and Mr. Keyser told us that American
	as a customer of U.S. Papers. Does that
	recollection at all?
an inch thick. 10-point back in '74 or in the 25 A The name is far	miliar, but the name is familiar,
Page 35	Page 37
1 '70s? 1 like possibly we	did, but I can't say positively.
2 Q Starting in 1974 through the '70s. 2 Q Could various gr	rades of the brown paper be used to
3 A 10-point, possibly 12-point. It went up. I'm 3 package food?	
4 thinking maybe 15-point. And we made what we called 4 A Package food?	I wouldn't think so.
	Mr. Keyser, Mr. Keyser told us that
6 sheets. 6 U.S. Papers sold i	rounds of brown paper to American
7 Q Do you ever remember the sheets of brown being 7 Can Company for	or use in their cans?
8 referred to as certain pound numbers? 8 A To what?	
9 A At one time, it was yeah, there was a pound rather 9 Q For use in cans?	?
than points. I don't know when that came to be. But 10 A In cans?	
11 I remember that term. 11 Q Yes. Does that i	refresh your recollection at all
12 Q Do you remember what the poundage values were for the 12 about whether U.S.	S. Papers produced circles of the
heavier paper that you just alluded to? 13 brown paper?	
14 A No, I don't. 14 A To use inside of	f cans?
15 Q What was the brown paper used for?	whether it refreshes your
	whether circles of brown paper
and sold for core stock to make cores. 17 were produced at	t U.S. Papers.
18 Q Do you remember whether it was produced for anything 18 A You mean circu	ular sheets?
19 else? 19 Q Yes.	
	oment here. It seems familiar that we
	a term ''headers,'' like it was
	headers, but I don't know how we
	le them, headers. The term "headers"
·	but I always thought that headers went
A We sold to I can't say for sure, but I'm not 25 on the ends for p	protection on the ends of rolls for

		Daga 20			Dama 40
		Page 38			Page 40
1		paper. The term "headers" comes to mind, but	1	Q	Now, as of 1974, do you know how much brown paper
2		maybe we got them in. I don't know. I can't recall	2		U.S. Papers was producing at the De Pere mill per
3		making circular sheets. Let me think. It seems to	3		day?
4		me I mean, I can kind of recollect now someone	4		No.
5		maybe cutting circles on the bandsaw, like. Maybe	5	Q	At any time during the 1970s, do you know how much
6		cutting headers on a bandsaw. That's how I I was	6		brown paper was being produced per day at the De Pere
7		trying to think how we could have made them. But I	7		mill?
8		kind of recollect somebody cutting circles on a	8		No.
9		maybe out of squares, cutting them in circles in	9	Q	We had just been talking about the materials produced
10		stacks.	10		at U.S. Papers. I want to switch gears here a little
11	Q	* *	11		bit and talk about what materials were needed to
12	A	I think so. I don't recall white, no.	12		produce the final product. What types of materials
13	Q	Would you have any reason to doubt Mr. Keyser's	13		did U.S. Paper use in its paper making process in
14		testimony that U.S. Papers produced circular rounds	14		1974 when you first started?
15		of brown paper for the American Can Company?	15	A	On the brown paper, we used corrugated boxes; crushed
16	A	I would have no reason for him saying we made them,	16		beer cases; kraft, what we called kraft or
17		but where they went to, I don't recall.	17		wet-strength kraft, like from pop cartons; beer
18	Q	You would have no reason to doubt that part of his	18		cartons.
19		testimony either, that they were sold to American Can	19		And to make brown paper, we we used
20		Company?	20		those brown types of scrap that I just mentioned, and
21	A	No, I couldn't say they didn't, no.	21		we mixed in what we called mixed, lighter lighter
22	Q	Do you remember who the customers were in the 1970s	22		papers.
23		who bought brown paper from U.S. Papers?	23	Q	I'll get back to those in a little bit. Have you
24	A	The names come to mind way back. James River, Fort	24		ever heard the term "virgin pulp"?
25		Howard. Local ones. But I couldn't oh, way back.	25	A	I've heard the term, yeah.
		Page 39			Page 41
1		That's so far back. All I remember is like local,	1	O	What's your understanding of virgin pulp?
2		Fort Howard, and was it Northern Paper mill called	2	A	I would think it would be I understand it's made
3		Northern in Green Bay. Some of these changed names	3		from wood fibers.
4		over the years, and when they did that, I don't	4	O	Do you know whether during the 1970s, specifically as
5		recall, see.	5		of 1974, whether U.S. Papers used any virgin pulp in
6	0		6		its production process?
7		again to see if it rings a bell with you. What about	7	A	I don't recall any.
8		Bergstrom Paper Company?	8		So it was primarily a recycling mill?
9	A	Bergstrom? I don't recall that name.	9	_	Right.
10	Q	Nicolet Paper Company?	10		Now, you had listed some types of papers used. How
11	A	I don't recall that, making it for them, no.	11	•	would U.S. Papers obtain the materials used to make
12	Q	What about Pope & Talbot?	12		paper?
13	A		13	A	I understand we bought them from other companies that
14		we made paper for Pope & Talbot, if it was back in	14		dealt in this.
15		the early '70s, that's yeah, that would be '74.	15	0	Do you know who those companies were as of 1974?
16		30-some years ago. So I don't know what names	16		No. I would suppose beer cases came possibly from a
17		corresponded to what years.	17		brewery. I don't know. Or packaging. But I don't
18	Q		18		recall names of companies, no.
19	_	The name can companies, I don't know if it was	19	0	I'm going to list off some names and see if it jogs
20		American Can or National Can, I'm not sure. I	20	~	your memory a little bit. Have you ever heard of a
21		remember the names, but if we made it for them	21		company called Green Bay Recycling?
22		positively, I possibly.	22	Δ	No.
23	O		23	Q	What about Sheboygan Waste?
24	V	company ring a bell?	24	A	
25	Δ	No.	25	Q	Shade Business Forms?
ّـــ	л	1100		×	Sings 2 dolliood I offilio.

		Page 42			Daga 44
		Page 42			Page 44
	A	Shade?	1		what they called possibly 50/50, mixed paper and
	Q	Um-hmm.	2	0	corrugated.
	A	No. I know the name of the company, but it doesn't	3	Ų	So the lighter sheets would be half corrugated, half
4	^	connect with buying paper.	4 5		mixed paper, approximately? Veg. As I recoll 50/50 mix. But sometimes I
_	Q	What about U.S. Paper Supply Company?	6	A	Yes. As I recall, 50/50 mix. But sometimes I, myself, found that 50 percent mix was almost too much
_	A		7		mix. So I would use more corrugated to make a
_	Q A	What about Golper Supply Company? Pardon me?	8		stronger sheet.
_	_	Golper?	9	Ω	How was recovered fiber delivered to the De Pere
	Q A	No.	10	Q	mill?
	Q	Menasha Mill Supply?	11	A	Back in the '70s?
	A		12	Q	
	0		13	_	Railroad car. We used to get beer case bales in.
14	~	fiber strike that. When I say the term "recovered	14		And some white paper came in railroad cars, like
15		fiber," do you understand what that means?	15		ledger. And semitrailer.
	A	It's been used already.	16	0	How often would wastepaper be delivered to the
		So, for example, if you bought some corrugated	17		De Pere mill?
18	•	cardboard that was thrown into the pulp vat, that	18	A	I don't know.
19		corrugated cardboard you would understand as	19		After the recovered fiber arrived either by rail or
20		recovered fiber?	20		by truck, how was it unloaded?
	A	Right.	21	A	By forklift.
	Q		22		Was it packaged in barrel bale form?
23	`	throughout the rest of this deposition, you'll know	23	A	
24		what I'm talking about, correct?	24	Q	What types of recovered fiber wouldn't be delivered
25	A	Correct.	25		in bale form?
		Page 43			Page 45
1	O	Okay. Now, you had stated that as of 1974, there	1	A	I remember unloading a trailer of newspaper with a
2	_	were several types of recovered fiber that U.S. Paper	2		front-end loader, just loose newspaper. Otherwise,
3		would use in its production process, including	3		it was mainly baled.
4		corrugated cardboard; old beer cases; kraft, which	4	0	How big were the bales?
5		you explained as wet strength; scrap paper produced	5	_	Some were smaller, barely 100 pounds, I remember.
6		at the mill itself; and then a mix?	6		Then 400 pounds, 500, 300, 800, 1,000 pounds. And
7		Mixed paper.	7		the beer case bales weighed 1500 up to 800,
		Mixed paper. What was in mixed paper?	8		900 pounds up to like 1900 pounds, the beer case
	_	It could be magazines, possibly books, some	9		bales.
10		newsprint, possibly office supply paper, things of	10	Q	What were the dimensions of the bales?
11		this nature.	11	A	Boy, dimensions. Some were pos the mixed paper
12	Q	Do you have any knowledge of how much mixed paper	12		are we talking about white paper also besides
13		U.S. Papers purchased as of 1974?	13		corrugated?
14	A	No.	14	Q	Yes.
15	Q	What grades of paper could be made from mixed paper?	15	A	Possibly 30 inches high, close to 30 inches deep, and
16	A	In combination with the corrugated and the longer	16		maybe six feet in length, seven.
17		fiber?	17	Q	And what types of papers would be packaged in bales
18	Q	Yes.	18		of that size?
19	A	What grades?	19	A	You would get the kraft bales in of the chopped drink
20	Q	Correct.	20		cartons, like from beer and soda, the brown kraft.
	A	10-point, 12-point, 14-point and on up. When we made	21		They were in those types of bales. I can't recall
22		the heavier sheets, we used to use almost all	22		the we had some that were I can't recall if the
23		corrugated and beer cases for the longer fiber,	23		ledger and computer printout, if they came in those
24		because it needed less mix in the heavier sheets.	24		bales. And we had I can't recall if corrugated
25		But the lighter sheets you had to use	25		came in those types of bales or not.

		Page 46			Page 48
				0	
1		And at one time, we had double-lined	1	Q	Stickies were different than wet strength?
2		kraft, they called it. It was a heavier,	2	A	Wet strength means a paper that's made to hold up
3		longer-fiber brown paper. Those came that came in	3		under damp conditions and not fall apart. And we
4		that type of 30-by-24 or 30 and six feet long or	4		used wet-strength beer cases and kraft for a stronger
5		seven.	5		sheet because they had longer fibers.
6	Q	1 1	6		But the test I'm recalling was to test
7		mixed papers?	7		for stickies, not wet strength.
8	A	Some mixed paper may have been more in an oval-type	8	Q	Okay. What grades of wastepaper were purchased to
9		bale, flatter, oval-type bales. Maybe six to six	9		produce the white paper?
10		feet, or a little better, longer. But they were	10	A	White, we called it CPO I think we called it,
11		flatter and more oval.	11		computer printout. It was off of computers.
12		Some newsprint in those type of bales.	12	Q	1
13		It's a long time back to recall what came in	13		use in producing white?
14	Q	Sure. Once the bales were delivered, where were they	14	A	Computer printout, and over the years, we
15		stored?	15		incorporated and I don't know when that started
16	A	They built a new warehouse years back. And before	16		chopped cups, like from Lilly Company and Sweetheart
17		that, they were mainly stored outside.	17		Company, I think. I'm not sure about the name
18	Q	As of 1974, where were they stored?	18		Sweetheart, but it was there were cups. Maybe I
19	A	Outside.	19		saw the names on some. But it was soft drink cups.
20	Q	There was no warehouse as of 1974?	20	Q	Could colored papers be used to make white?
21	A	There was an old warehouse, and some of it was	21	A	The chopped-cup bales, some had more color than
22		stacked inside. There was some space there. And	22		others. Some of them not much color, and some had
23		hopefully it was stacked inside, because otherwise	23		red in, reds and yellows and some more than
24		they had to go outside for it. But mainly you had to	24		others. So they could be used, as long as they
25		run outside for your paper.	25		didn't overdo it on the colored bales, yeah.
		Page 47			Page 49
1	0	Do you know whether individual bales were sorted once	1	Q	Could mixed paper be used to make white?
2	•	they arrived at U.S. Papers?	2	_	Mixed. Mainly the computer printout, the cup
3	A	~	3		chopped paper cups. And once companies started it
4	Q		4		was switched to a grey paper that was white, but some
5	A		5		companies wanted it tinted grey. Then we could use
6		in rows, mix in this row, corrugated in this row,	6		some newsprint in to color it.
7		kraft in those rows. They were kept separate, yeah.	7	0	When did that happen?
8	Q	· · · · · · · · · · · · · · · · ·	8	_	I don't recall the year.
9	A		9	Q	Was it in the 1970s?
10	11	controller. And he unloaded them and stacked them.	10	A	I don't remember it way back.
11	0		11	Q	-
12	Q	performed on any incoming bales?	12	Q	mixed paper couldn't be used in the production of
13	٨	I don't recall any.	13		white?
14	_		14	٨	No, it was understood that we had to have clean
15	Q	test?	15	А	clean furnish to go in. And I don't recall we had
			16		-
16	A			0	to use cleaner paper to make white.
17	Q		17	Q	* *
18	A	We used to make a test for stickies on the paper	18	_	Yes, it yeah. Yeah.
19		machine, for adhesives in the sheet. And as I	19	Q	Do you recall office papers being used to make white?
20		recall, we used a blender and blended up paper and	20	A	Mainly computer paper. Office paper would I don't
21	_	water for that test.	21		recall mixing office paper. Possibly. I don't
22	Q		22	_	recall.
23	A	· · · · · · · · · · · · · · · · · · ·	23	Q	1 1
24	Q	C	24	A	
25	A	No.	25	Q	Were there any grades of wastepaper that U.S. Papers

		Page 50			Page 52
1		specifically would not use in production?	1		something called a side-hill washer?
2	A	If it was too dirty, had too much contaminants in, it	2	A	Side-hill washer?
3		could be rejected.	3	Q	Um-hmm.
4	Q	Do you mean a bale could be rejected if it had too	4	A	We had what we called side hills, save-all was
5		much contaminants in it?	5		another name for them.
6	A	A single bale? All depends on the contamination that	6	Q	And what would those do?
7		was in it, I suppose. If it was too much with the	7		MR. WASKOWSKI: What was the name of it?
8		whole bale, I suppose a little at a time could go in.	8		(Discussion off the record.)
9	Q	•	9		(Previous question and answer read back.)
10	A	Possibly plastic. Possibly plastic. I suppose if it	10		THE WITNESS: What would they do? They
11		had regular carbon paper in, that dark, old-fashioned	11		would separate the you had overflow you had
12		carbon paper; wax, something with wax in, you	12		overflow paper fibers in water from the paper
13		couldn't put a whole bale on. You would ruin the	13		machine, and they went over I believe that went
14		sheet or plug up the hydrapulper with plastic.	14		over both side hills in a room off the paper machine.
15		Sometimes we had to pull the stuff out by hand.	15		And it would take overflow from the
16	Q	But there were no specific types of paper that	16		paper machine, from their pit, pump it over one or
17		U.S. Papers ever said, "We will not use this in our	17		both of those save-alls. And the water would go
18		production"?	18		through the screen into a water pit, and the what
19	A	Oh, you had to watch out for poly what they called	19		we called the stock, the solid fiber, would roll down
20		poly surface. Sometimes you would have to check I	20		the screen down the side hill into a trough and be
21		don't know when we started running into this, but you	21		reused.
22		had to watch that you didn't have a bale that looked	22		Y MR. STEFFEK:
23		okay until you tore some of it and you found out it	23	Q	So if paper that went into the pulper had ink on it,
24		was vinyl on one side or poly and plastic coated on	24		would that ink end up in the finished product?
25		one side. You couldn't use that.	25	A	I don't know if it would stay in the paper or if it
		Page 51			Page 53
1	Q	What types of paper would be poly or plastic coated?	1		would stay in the water.
2	A	I think it would be in the mixed paper, but what it	2	Q	Have you ever heard the term "broke"?
3		was made for, I don't recall.	3	A	Broke, yes.
4	Q	Did you ever see papers that were poly or plastic	4	Q	What is your understanding of the term "broke"?
5		coated?	5	A	Broke is leftover paper from a after a product has
6	A	, .	6		been made.
7	Q	· · · · · · · · · · · · · · · · · · ·	7		Did U.S. Papers ever purchase any broke from any
8	A	Mainly white. Just white.	8		outside parties for use in its production process?
9	Q	7 1 1	9	A	Broke. I don't recall it being called broke, but we
10	A	I don't recall the years or the time frame when we	10		would get in trailers of corrugated corrugated on
11		started running into that. Perhaps the wastepaper	11	_	pallets, boxes, leftover boxes.
12		buyer over the years. Finding out when you got it in	12	Q	And where would those come from?
13		the hydrapulper, you knew you had to watch out for it		A	, · · · · · · · · · · · · · · · · · · ·
14		by experience. And then, of course, you would talk	14		not sure if it was James River or what. I want to
15		with the with the paper buyer that you ran into	15		say James River, but I'm not positive on James River.
16 17	0	it. Would you over talk with the paper huver?	16 17	Ų	From when you started at U.S. Papers through the
18	Q	Would you ever talk with the paper buyer? Yeah, yeah. Over the years, the latter years, I knew	18		1970s, do you remember any substantive changes in
19	A	the wastepaper buyer better than I did well, he	19		what type of recovered fiber was used in the production process at the De Pere mill?
20		was the only one that I knew. Way back I don't know	20	A	
21		who bought the paper.	21	Q	Sure.
22	Q		22	A	Over the years, we used to get way back, I don't
23	~	paper that it used as recovered fiber?	23		remember. But over the years we got scrap cores in
24	A	I don't recall any any way of taking ink out.	24		from other companies. And some of those were in this
25	Q		25		type of bale and long. But when we started getting
	~	20 Jou recair the paper making process meorporating	~		The or ware and rough but thren the started details

		Dago F4			Daga E6
_		Page 54			Page 56
1		those, I don't know if it was way back or not.	1	A	On a slight angle, yeah.
2		MR. STEFFEK: Read back the question,	2	Q	How high was the wall of the hydrapulper?
3		please.	3	A	1 0
4		(Previous question and answer read back.)	4		floor. And that's the maximum that the mixture could
5		THE WITNESS: Any changes? This was your	5		come up to above the floor.
6		last question, though?	6	Q	Was there a fence surrounding the hydrapulper so an
7	_	/ MR. STEFFEK:	7		individual wouldn't fall in?
8	Q		8	A	Well, there was a shroud, we called it, I think a
9		Any changes. Basically the same. At one point, we	9	_	shroud around it above a metal shroud, yeah.
10		were getting in egg cartons, egg cartons. I don't	10	Q	,
11		remember that way back. In the latter years, we were	11	A	That shroud was cut out on one side.
12		using egg cartons. And I don't remember that way	12		MR. STEFFEK: Could you repeat his last
13		back. But basically it's been corrugated beer cases,	13		answer for me?
14		kraft, and mixed paper and computer printout and	14		(Previous answer read back.)
15		office waste. I can't think of a major change, no.	15		/ MR. STEFFEK:
16		And paper-cup bales, yeah.	16	Q	Did the conveyor belt come from a separate level as
17		Do you know how much recovered fiber would be	17		where it went into the hydrapulper, or was that all
18		required to make a ton of finished product?	18		on the same level?
19		No.	19	A	No. The conveyor belt itself was on an angle, and it
20		, , ,	20		started out on the floor of the pulper room, possibly
21		much recovered fiber would be placed in the pulper	21		24 inches high. Then it went on an angle higher into
22		per shift?	22		the hydrapulper.
23		I can't say the poundage.	23	Q	1
24		Do you remember approximately how many bales would be	24		hydrapulper how high was the conveyer belt?
25		placed in per shift?	25	A	Possibly five feet, a little better. Between five
		Page 55			Page 57
1	A	No.	1		and six feet.
2	Q	How were the bales of recovered fiber placed in the	2	O	
3		pulper?	3	`	you responsible for looking at the open bale?
4	A	Well, we would take the forklift, go to where the	4	A	
5		bales were stacked, pick up one or two on the forks,	5	Q	What were you looking for?
6		drive back to the hydrapulper. And there was a	6	À	Wax, a board or something that contaminants.
7		slanted conveyor that ran up and dumped the paper	7	Q	If you found a contaminant, what would you do?
8		into the pulper. If you had one bale on the forks,	8	A	Pull it off, if you could.
9		you had a wire cutters on your belt, and you cut off	9	Q	What if you couldn't?
10		all the wires except what you needed to hold the bale	10	A	If you couldn't, a board you couldn't get out? You
11		from falling apart. And then you would dump the bale	11		made an effort to get it out, if you could. You had
12		on a conveyor, got up and cut the wires off and tied	12		to you had to get it out if you could. If it was
13		them on the side of the conveyor if you couldn't pull	13		a board that was impossible to get out, a short
14		them off, and then you ran the conveyor ahead, and	14		length, it would go in the hydrapulper.
15		the paper entered the hydrapulper.	15	Q	Were you ever, once the bales were open, looking for
16	Q		16	-	any specific type of paper?
17		conveyor belt?	17	\mathbf{A}	Corrugated box with wax coating on it, for instance.
18	A	Right.	18	Q	And if you saw a corrugated box with a wax coating,
19	Q	How long was the conveyor belt?	19		you would pull it out?
20	A	Possibly 15 feet.	20	A	If it was possible, yeah.
21	Q	Do you remember how fast it moved in the 1970s?	21	Q	And if it wasn't possible, it went into the
22	A	Pretty slow.	22		hydrapulper; correct?
23	Q	Once the bale was opened on the conveyor belt	23	\mathbf{A}	Correct.
24		strike that. You alluded to the fact that the	24	Q	, , , , , , , , , , , , , , , , , , , ,
25		conveyor belt had to go up some; is that correct?	25		it went up the conveyor belt and into the
